

MESHACH CHRISTO I

Full Stack Developer | MERN Stack | AI Integration

jmchristo.2000@gmail.com | +91 7339433206 | Cuddalore, Tamil Nadu 607003

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in creating responsive user interfaces, developing backend APIs, and integrating AI-powered features into real-world projects. Comfortable working in agile teams and passionate about writing clean, maintainable code. Currently exploring AI chatbot development using tools like Gemini, OpenAI, and Ollama to build smarter, more interactive applications.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap

Backend: Node.js, Express.js, REST API Development

Databases: MongoDB, MySQL, PHP

AI / Chatbot Development: Gemini API, OpenAI API, GPT4All, Ollama, llama.cpp — AI chatbot creation and integration

AI Tools: Claude AI, DeepSeek, Qwen AI, Antigravity's Agent, Amazon Q, Gemini AI

Version Control & Tools: Git, GitHub, Visual Studio Code

Programming Languages: JavaScript, Python

Methodologies: Agile Development, Code Review, REST Architecture

WORK EXPERIENCE

Full Stack Web Developer Intern — Askan Technology Pvt Ltd

March 2025 – September 2025 | Remote / On-site

- Developed and maintained full-stack web applications using React.js, Node.js, and MongoDB.
- Designed and implemented responsive frontend user interfaces with reusable React components.
- Built and integrated backend RESTful APIs to support frontend functionality.
- Participated actively in agile sprints, daily stand-ups, and peer code reviews.
- Collaborated with cross-functional teams to deliver features on schedule.

MERN Stack Developer Intern — Hema's Enterprise Pvt Ltd

February 2026 – May 2026

- Developed AI-integrated web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Built an AI-powered Admin module for a Dairy Management System using Ollama 3.2, incorporating RAG (Retrieval-Augmented Generation), NLP (Natural Language Processing), and Machine Learning techniques.
- Designed and implemented a role-based access control system to manage different user permissions across the platform.
- Integrated local LLM capabilities using Ollama to enable intelligent, context-aware responses within the admin dashboard.
- Collaborated with the team to design RESTful APIs connecting the AI backend with the React.js frontend.

COURSES & TRAINING

Web Development — Next Gen Solutions, Cuddalore | 2024

Hands-on course covering HTML, CSS, Bootstrap, and JavaScript through a live pet shop website project.

Python, Data Science & Machine Learning — Besant Technologies, Chennai | Apr 2023 – Dec 2023

Intensive training in Python programming, Data Science fundamentals, and Machine Learning model building.

PROJECTS

Blog Site – Full Stack Web Application

Tech Stack: React.js, Node.js, MongoDB, Express.js

- Built a full-featured blogging platform with user authentication, blog creation, editing, and management functionalities.
- Implemented a role-based user management system with secure login/logout features.

Bike Rental System (M.C.A Project)

Tech Stack: PHP, MySQL

- Developed an online bike rental management system with booking, availability tracking, and admin dashboard features.

Online Toll Booking System (B.Sc. Computer Science Project)

Tech Stack: PHP, MySQL

- Created an online toll booking portal enabling users to pre-book toll passes and reducing manual queue time.

Pet Shop Website

Tech Stack: HTML, CSS, Bootstrap, JavaScript

- Designed and developed a responsive e-commerce-style pet shop website with product listings and contact forms.

Dairy Management System – AI Admin

Tech Stack: React.js, Node.js, MongoDB, Express.js, Ollama 3.2

- Built a full-stack Dairy Management System with an AI-powered admin module using Ollama 3.2 as the local LLM.
- Implemented RAG (Retrieval-Augmented Generation) to allow the AI admin to answer queries based on real dairy data stored in MongoDB.
- Applied NLP and Machine Learning techniques to enable intelligent data insights and automated decision support for dairy operations.
- Designed a role-based access control system with separate dashboards and permissions for Admin, Staff, and Viewer roles.

EDUCATION

Master of Computer Applications (MCA)

Christ College of Engineering and Technology, Pondicherry | 2021 – 2023 | GPA: 76.76%

Bachelor of Computer Science (B.Sc)

St. Joseph's College, Tiruchirappalli (Autonomous) | 2018 – 2021 | GPA: 61.71%

LANGUAGES

Tamil: Native / Fluent

English: Professional Working Proficiency
